LIBRARY CIRCULAR NO. 8 (Revised)

Periodical Subscriptions for Calendar Year 1948

All orders for American and foreign periodicals to be supplied to your agency during the calendar year 1948 should be transmitted to the Department Library by August 8, 1947.

It is very important that these orders reach the Library on or before August 8, so that bids can be secured and orders placed early enough to ensure acceptance. Publishers are strictly limited in the amount of paper available for their periodicals. Some publishers will not accept new subscriptions. Others will accept new subscriptions only on the condition that the subscription will be started when a vacancy occurs in their mailing lists.

In view of the paper shortage in England and other countries and because of shipping difficulties, requests for foreign periodicals must be received before August 8, if breaks in service are to be reduced to a minimum.

Please submit requests for purchase of periodicals on Form AD-244 Revised (Request for Purchase of Publication).
